

EUINCOOP – FOSTERING COOPERATION IN COMPUTING SYSTEMS

EUINCOOP
Cooperate Collaborate Connect

www.euincoop.eu

Supported by the European Union Seventh Framework
Programme under grant agreement N° 287820.

Key Objective

The EUINCOOP (EU-India Fostering COOPERation in Computing Systems) is a Coordination and Support Action (CSA) project funded by European Commission under FP7 which is running for 26 months from 1 October 2011. The project objective is to stimulate cooperation in the Computing Systems technologies field between Europe and India, in order to support Europe's leading position in Computing Systems, while ensuring mutual benefits for both Europe and India.

Key Contributions

- ▶ Bringing together – the European and the Indian computing system community.
- ▶ Identifying the major challenges faced in the field of computing systems.
- ▶ Creation of a research roadmap in computing systems using the input of the European and Indian Policies resources and needs.

Project Details

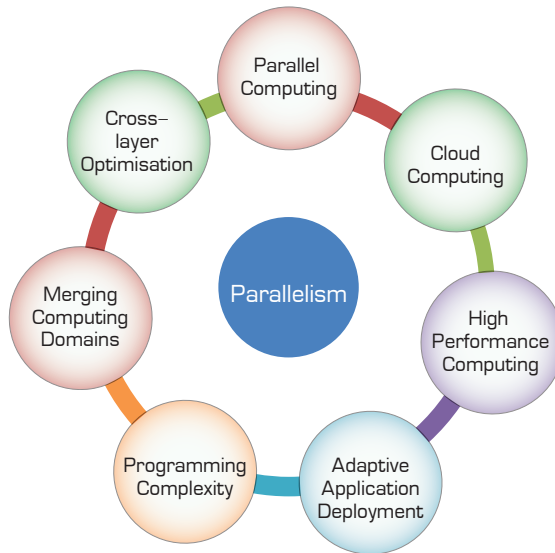

Project start date: 01-10-2011
Duration: 26 months
Project coordinator: FORTH

Key Findings for Euro-India Collaboration

Identified Technology Areas for Cooperation

Common Research Challenges and Computing Domains

- Software for emerging platforms
- Software for internet based systems
- Software for Big Data
- System software for enterprise
- Network embedded system interoperability
- Software for social computing
- HPC Technology Platform
