

"ADVANCED COMPUTING SYSTEMS: CHALLENGES AHEAD"

Key discussion points

New Approaches for addressing challenges ahead with focus on International Cooperation involving joint research activities

Key technologies under consideration and possible New Project Definition in Horizon 2020 Programme

Improvements and Automation in Software Production for the Next Generation Computing Systems

Societal Challenges reinforcing Industrial Competitiveness enabled by Advanced Computing Systems

Project start date: 01-10-2011
Duration: 26 months
Project coordinator: Sotiris Ioannidis
